

WANNA KNOW

WANNA KOW

what nature sounds like?
what music looks like?

TAKE

a walk, a stroll
an earful of music
a heart full of sounds
an eyeful of rocks
a mindful of mountain streams

TASTE

the pureness of water
the melody of joy
the kindness of people
the vibration of the day

HEAR

the birds call
the fish jump
the butterfly dance
the bees hum
the lullaby song

SEE

the eagle glide
the deer flee
the wind curl the water
the rattling of the leaves
the colors of the harmony

FEEL

the beauty of life
the happiness of love
the velocity of space
the pace of tones
the timelessness of music

ENJOY

UNCOOL music of alien worlds
